

The Global Development And Environment Institute Presents:

“Managing Without Growth: Slower by Design, Not Disaster”

A presentation by Peter Victor

**Tuesday, February 16, 2010
3:30 - 5:00 PM
Cabot 702 – The Fletcher School
160 Packard Avenue, Tufts Medford Campus**

Light refreshments will be served immediately following the lecture

Peter Victor challenges the priority that rich countries continue to give to economic growth as an over-arching objective of economic policy. The challenge is based on a critical analysis of the literature on environmental and resource limits to growth, on the disconnect between higher incomes and happiness, and on the failure of economic growth to meet other key economic, social and environmental policy objectives. Peter Victor is an economist who has worked on environmental issues for over 40 years as an academic, public servant and consultant.
