Membership Benefits

Massachusetts Campus Compact supports campuses by providing training, technical assistance and grants for program development, opportunities to network with other campus-based programs, and a source for public education and legislative outreach at state and federal levels.

TRAINING

On-Campus Workshops: MACC member institutions are eligible for one complimentary on-campus training workshop each year on any of the following topics.

Introduction to Service-Learning

Service-Learning in a Specific Discipline

Assessing Campus Institutionalization of Service-Learning

Other Opportunities: MACC periodically offers free or low-cost regional or statewide training events on topics identified by members. Members also receive special rates on registration for our annual conference in the spring and our faculty institute in the fall

TECHNICAL ASSISTANCE

Campus Visit: MACC staff can visit member campuses to meet those involved in developing service-related programs and curricula, provide an overview of MACC resources, and discuss institutional goals, accomplishments, and strategies.

Presidential Consultation: MACC's Executive Director will meet with member Presidents upon request to discuss specific issues at their institutions.

Meeting Facilitation: MACC staff can facilitate a campus meeting on a topic related to the development of service initiatives.

GRANT PROGRAMS

MACC offers competitive grants to foster innovative community service and service learning, and other civic engagement programs in the Commonwealth. Member campuses are also eligible to host a MACC AmeriCorps*VISTA member to build and expand the quality of community service and service-learning programs while working on the development of new and existing community partnerships.

PUBLICATIONS & RESOURCES

MACC member institutions are invited to subscribe to the MACC listserv which enables members to share ideas, resources, and information with other member campuses across the state. Occasionally, MACC produces White Papers to capture the learning from major MACC events.
