

CONSENT OF PUBLICATION FORM

This form is required for publication in TuftScope.

I. Publication

As a student run journal TuftScope understands that there may be circumstances under which authors may wish to publish their work in another professional journal. *TuftScope* places no restrictions on publication in other venues besides itself, but requires that the author or authors of a paper recognize that every journal has a unique publication policy. Duplicate publication is considered a serious breach of etiquette by many journals. *TuftScope* urges all authors to investigate the policies of other journals in which they may be interested in publishing.

II. Stipulations

The author or authors acknowledge(s) that:

- The paper submitted is an original paper which the author or authors has/have the legal right to publish. The author retains full copyright privileges over the work published in TuftScope, outside of the below stipulations.
- The paper submitted to the journal has not been published in another student journal.
- The paper is accurately and fully cited and referenced.
- The paper can be published in *TuftScope* and is not restricted by prior agreement (see *Publication* above).
- The author or authors grant(s) *TuftScope* the right to publish the paper in both paper and electronic formats.
- The author or authors is/are willing to work with *TuftScope* to refine and edit the paper for publication if necessary. This includes, but is not limited, to grammatical changes and possible shortening of the text for publication. Authors will be informed and consulted on any serious textual changes.

By signing this form the author or authors agree to all of the stipulations within.
